15 OCT 97

MEMORANDUM FOR PROSPECTIVE OFFERORS

FROM: OC-ALC/LADBA
3001 Staff Dr Ste 1AG107B
Tinker AFB OK 73145-3020

SUBJECT: Release of KC/KDC-10 Formal Request for Proposal, F34601-97-R-0098

1. The attached Formal Request for Proposal, F34601-97-R-0098 is provided to your company as requested. You are reminded that the Draft RFP sent previously has been superseded by the attached document. Some of the changes were made as a result of the comments received from the Pre-solicitation Conference and some additional changes were made based on corrections or additions made to the requirement for support of the KC/KDC-10 aircraft. Proposals must be submitted prior to 1500, 17 December 1997 and proposals need to be good for a minimum of 200 days to allow adequate time for evaluation and award.

2. The following changes have been made to the RFP and are listed here for clarification. Due to these changes, additional written questions will be accepted from all offerors until close of business 31 October 1997. These questions with answers will be mailed to all offerors by 7 November 1997 and they will be posted on the internet.

- a. All clauses have been updated and the Offeror Representations and Certifications have been consolidated in Section E(3).
- b. Revisions to the CLIN structure include a breakout of APU overhaul into three subCLINs, and a breakout of the Wing Aerial Refueling POD Maintenance into ten subCLINs.
- c. The material to be covered under the fixed price for C-Checks has been further defined in the CLIN description.
- d. Additional labor categories have been added for the fixed hourly rate items in the over and above CLINs.
- e. The Phase-In language has been changed to allow all offerors to propose a Phase-In.
- f. The cost reimbursable CLINs have been deleted and replaced with Over and Above CLINs/subCLINs in the ACO authorized Over and Above area.
- g. Special attention should be given to the rewording of Clause C-822, ALTERNATE PROPOSAL, which now provides some protection for the offeror who submits an alternate proposal. Offerors are reminded to submit a proposal that first meets the requirements of the RFP before providing the additional alternate proposal.
- h. Documents that were for information only have been removed from the RFP and are consolidated on the internet at the address listed below. This would apply to KC-10 and KDC-10 usage data and we have added some additional data that may be beneficial, i.e., List of Open Service Actions, etc.

i. Attachment 3, List of Benchstock Materials has been deleted because these materials are included in Attachments 2a and 2b.

3. The entire solicitation, Sections A through E, including attachments/appendices/exhibits, are enclosed on CD ROM with the exception of the following documents which are included with the attached hard copy of the solicitation, Sections A through E:

Security Classification Specification, DD Form 254	2 Pages
Data Item Descriptions (DIDs)	27 Pages

Of special importance is the INDEX of RFP Documents on the CD which will help you locate each document file on the CD. The solicitation is also available on the internet at the following address:

<http://pkwww.tinker.af.mil/clskc10.htm>

4. We greatly appreciate the input received on the Draft RFP. We have seriously considered all of the information submitted and have taken action to make the Formal RFP as straight forward and clear as possible.

5. Be advised that all contacts/correspondence must be accomplished only through the Contracting Officer, Timothy K. Young. If further assistance is required, please contact the undersigned at(405) 739-2317.

TIMOTHY K. YOUNG
Contracting Officer
Directorate of Aircraft
